

Table in alphabetical order

Number poster	Name	Surname	Title	Page
2	ACHARYA	Munjal	Immune checkpoint inhibitor treatment for melanoma disrupts cognitive function and elevates neuroinflammation	1
3	AGELINK VAN RENTERGEM	Joost	Separating Attention Lapses from Processing Speed Variability in Cancer Survivors: A Hierarchical Bayesian Approach	2
4	AGELINK VAN RENTERGEM	Joost	A Web-Based Tool for Estimating Expected False Positive Rates in Applying ICCTF Cognitive Impairment Criteria	3
5	AHLES	Tim	Application of Complex Systems Theory to Cancer-Related Cognitive Change (CRCC) in patients with non-CNS cancers	4
6	AMIDI	Ali	Impaired Sleep Quality is Associated with Neurocognitive Function and Luteinizing Hormones in Newly Diagnosed Testicular and Prostate Cancer Patients	5
7	AUDEBERT	Manon	Radiotherapy-induced cognitive deficits: a systematic comparison between targeted and whole-brain irradiation in the rat	6
9	BARRAULT	Zo�e	Assessment of everyday executive functioning using the BRIEF questionnaire in children and adolescents treated for childhood extra-cranial solid cancer	7
10	BASTI	Samira	DIFPAD-Onco Nurse district screening of frailty's older adult with cancer at home : focus on screening for cognitive impairments	8
11	BEAUPLLET	B�ereng�ere	Unmet needs and cognitive complaint in older patients with hematological malignancy and their primary caregivers : a cross-sectional multicenter study	9
13	BOCKEL	Sophie	Optimized MRI Coil Setups and Fully Automated White Matter Tract Integration for Neurocognitive-Sparing Radiotherapy	10
15	BOMPAIRE	Flavie	Long terme neuroradiological outcome of children with medulloblastoma	11
17	BRUNAUD	Carole	Detection of radiation-induced brain lesions in a rat model, using deformation-based morphometry (DBM), a method involving magnetic resonance imaging (MRI)	12
18	BULLENS	Kristien	Whole-brain graph metrics of functional brain networks in long-term survivors of a pediatric brain tumor and its relation to cognitive functioning.	13
33	C�AMARA-COSTA	Hugo	Neurocognitive and psychosocial outcomes in 278 children treated for non-Central Nervous System malignant solid tumors: Results from the RISK-N cohort.	24
19	CAPETTI	Benedetta	Neuropsychological Assessment in Non-Central Nervous System Cancer Patients: A Systematic Review of Cognitive Screening and Assessment Within Oncology Practice	14
20	CARMON	Alexandra	Cerebellar organoids as a model for evaluating neuropathodevelopmental processes and SHH-type medulloblastoma therapeutic toxicity	15
22	CASAGRANDE	Chloe	Longitudinal Examination of Brain Structure and Factors Predictive of Post-Treatment Change in Older Breast Cancer Survivors: The Thinking and Living with Cancer Study	16
23	CASTEL	H�el�ene	Breast cancer induces cognitive deficits and depression through the release of extracellular vesicles and IL-6 in mice	17
25	CHAN	Alexandre	Improvement of Perceived Cognitive Function and Associated Biomarkers using Traditional Chinese Medicine in Cancer Survivors: A Randomized, Double-Blinded, Placebo-controlled Pilot Trial	18
92	CHAN	Alexandre	Accelerated Epigenetic Ageing within Adult and Young Adult Cancer Patients Predicts Cancer-Related Cognitive Impairment: A Prospective, Longitudinal Study	71
26	CHEUNG	Denise Shuk Ting	Cognitive change before and after chemotherapy: An exploratory longitudinal study	19
28	COLAES	Rob	Trajectories of cognitive complaints in patients with breast cancer and their association with psychosocial and neurobiological factors	20
30	CONTI	Lorenzo	Preliminary Data from the Neuropsychological Assessment of Patients with Lung Cancer Awaiting Surgery	21
31	CONTI	Lorenzo	Cognitive Dysfunctions and Brain Functional Changes After Chemotherapy in Breast Cancer Patients: A Functional MRI Study Protocol	22
32	CORREA	Denise	Neurocognitive Function in Patients with and without Graft-versus-Host Disease after Allogeneic Stem Cell Transplantation	23
35	DILDA	Jaden	The Impact of Radiation Therapy on White Matter Network Organization Across Childhood and Adolescence	25
36	DRIJVER	Josephine	Neurocognitive Development in Infants Newly Diagnosed with Acute Lymphoblastic Leukemia (Interfant-21)	26
37	DUIVON	Myl�ene	From research to clinical setting, a group cognitive rehabilitation program for cancer related cognitive decline	27
38	DUIVON	Myl�ene	Interaction between APOE �4 status and endocrine therapy on cognitive functioning among breast cancer survivors: the CANTO-Cog longitudinal study	28
40	EDELMAN	Jay	The effect of cancer and cancer treatment on attention control: evidence from anti-saccade performance	29

41	ELIA	Clara	A comprehensive assessment of attention abilities in breast cancer: examining distinct attentional systems	30
42	FERGUSON	Robert	The Cognitive Symptom Checklist-Work-21: Psychometric Update with Breast Cancer Survivors Following Chemotherapy	31
43	FERGUSON	Robert	The Metamemory in Adulthood-Anxiety Scale: Psychometric Update with Breast Cancer Survivors Following Chemotherapy	32
44	FERGUSON	Robert	Adoption of the International Cognition and Cancer Task Force (ICCTF) Recommendations for Harmonizing Studies of Cancer-Related Cognitive Impairment among Adult Survivors Since Their Introduction in 2011.	33
46	FOX	Amber	Caring about Cognition: The Role of Caregivers in C-SMART for Patients with Brain Tumors	34
47	GALIN	Melvin	Study of the link between spatial memory and sleep in women with newly diagnosed breast cancer: A pilot study	35
48	GATES	Priscilla	Improvements in cognitive performance following web-based cognitive rehabilitation in patients with aggressive lymphoma with perceived cognitive impairment: a randomised pilot trial.	36
49	GATES	Priscilla	Cognitive impairment and brain atrophy in patients with newly diagnosed aggressive lymphoma undergoing standard chemotherapy: a normative analysis using the CentileBrain framework	37
87	GERAT MULLER	Véronique	Evaluation of a cognitive therapy adapted to the "Chemobrain" in patients treated for breast cancer	68
51	GIBNEY	Kyla	Comparing associations between neurometabolite concentrations and neurocognitive function in survivors of pediatric Hodgkin lymphoma (HL), acute lymphocytic leukemia (ALL), and control subjects	39
52	GIFFARD	Bénédicte	Endocrine therapy for breast cancer: Which impact on cognition? Clues from a virtual reality prospective memory task	40
53	GIFFARD	Bénédicte	The clinical utility of a short prospective memory test during the neuropsychological examination of breast cancer patients with cognitive complaints: an exploratory study	41
54	GONZÁLEZ	Mari Feli	EEG and neuropsychological profile of breast cancer survivors with cognitive complaints	42
55	GONZÁLEZ	Mari Feli	Computerized cognitive testing in CRCI – what kind of relevant information can provide these tests?	43
56	GREENBERG	Adam	Longitudinal differences in BOLD responses during neurocognitive task of attention in CRCI	44
57	HO	Mu-Hsing	Comparative Effectiveness of Various Nonpharmacological Interventions, including Traditional Chinese Medicine-Based Interventions for Cancer-Related Cognitive Impairment: A Comprehensive Network Meta-Analysis	45
59	HUISMAN	Marisa	Social functioning within the first years after pediatric brain tumor diagnosis and the relationship with family psychosocial risk.	46
60	IYIZOBA EBOZUE	Zsuzsanna	Neurocognitive impairment in long term survivors following (chemo)radiotherapy for oropharyngeal cancer: a cross-sectional study	47
61	JOLY	Florence	Impact of androgen receptor pathway inhibitors on cognitive function in elderly patients treated for metastatic prostate cancer: results from COG-PRO trial	48
64	LE FEL	Johan	STUDY OF THE IMPACT OF ADAPTED PHYSICAL ACTIVITY SESSIONS ON COGNITIVE FUNCTIONS AND QUALITY OF LIFE OF PATIENTS TREATED FOR LOCALIZED BREAST CANCER	49
65	LEROSIER	Baptiste	Hippocampal subfields volumes and episodic memory in breast cancer patients before and after chemotherapy	50
66	LI	Yuelin	Allostatic Load Affects Cancer Survivors' Neurocognitive Performance in Memory and Language	51
69	MAYO	Samantha J	A stepped care program for cancer-related cognitive impairment in an ambulatory clinic setting: A codesign project involving patients, caregivers, and clinic staff	53
70	MCDONALD	Brenna	Episodic Memory Activation as a Potential Biomarker in Treatment Trials for Cancer-Related Cognitive Impairment: Relationship to Cognitive Performance and Self-Reported Cognition	54
71	MCLEOD	Andrew	Neuropsychological Assessment of Older, African American Adult Cancer Survivors and Controls	55
50	MULLER	Christophe	Impact study on the effects of the onCOGITE program on the return to work of patients with cancer related cognitive impairment.	38
72	NETH	Bryan	Assessment of Alzheimer's disease neuropathologic change in cognitively impaired prostate cancer survivors	56
73	NG	Ding Quan	Dynamin-1 is a potential mediator in Cancer-Related Cognitive Impairment	57
75	NOLL	Kyle	Relationships between intraoperative gamma band electrocorticograms, direct electrical stimulation, and cognitive-linguistic outcomes in patients with language-eloquent brain tumors	58
93	PARSONS	Clara	Assessing the Impact of Glioma Connectivity on Cognitive Function and Patient Survival Using Structural and Functional MRI	72
76	PARTANEN	Marita	Implementation of a tiered neuropsychological care model in pediatric neuro-oncology: the Brain CARE program	59
82	PÉRÈS	Elodie A.	Brain exposition to low-dose ionizing radiation mitigate chronic cerebral hypoperfusion-induced cognitive deficits in the rat	64
83	PÉRÈS	Elodie A.	Spare of organs at risk of head and neck in animal models of radiation-induced brain injury: focus on cognitive deficits	65

78	PERRIER	Joy	Effects of self-representations on the relationship between anxiety and cognitive flexibility in breast cancer patients following adjuvant treatments	60
79	PERRIER	Joy	Insomnia complaints and diurnal cortisol in breast cancer patients treated or not with endocrine therapy: preliminary results	61
80	POTTHOFF	Ruben	Network Analysis Reveals Working Memory Capacity as Key Process in Cancer-related Cognitive Impairment	62
81	PYTER	Leah	The role of oxytocin in mediating the relationship between social factors and chemotherapy-associated cognitive decline	63
84	REXER	Jennie	A Case Series Examining Memory Performance in JC Virus PML Patients Following CTL Treatment	66
86	RICHARD	Amélie	Using Machine Learning to unveil speech markers of Cancer-Related Cognitive Impairment	67
88	ROOT	James C.	The Role of Deficit Accumulation in Cancer-related Cognitive Dysfunction: Evidence from Cognitive-experimental Measures	69
89	SAITA	Kazuya	Multidomain assessments to detect chemotherapy-related cognitive impairment in gastrointestinal cancer survivors: a prospective cohort study	70
94	SCHEULER	Bryanna	Developing a Response Time Modeling Approach to Assess Cancer Cognition	73
95	SEKELY	Angela	Improving access to neurocognitive assessment: results of a feasibility, acceptability, and validity investigation of the Amsterdam Cognition Scan for brain tumor patients	74
96	SELIE	Amber	Dementia and Cancer Susceptibility: Unravelling Surveillance Bias and Differential Measurement Error in a Population-Based Cohort	75
97	SHI	Zhaoyue	Hyperconnectivity in hippocampus and temporal gyrus is associated with colorectal cancer-related cognitive decline: a 7T MRI study	76
98	SIEBENGA	Femke	Long-term course of social cognition in patients with low-grade glioma treated with proton therapy and chemotherapy	77
99	SLEURS	Charlotte	Longitudinal changes in fatigue and pain and the role of distress experienced by childhood cancer survivors throughout the PCFU care intervention	78
100	SMALL	Brent	Characterizing Cancer-Related Cognitive Impairment Among Adolescent and Young Adult Cancer Survivors	79
101	STRAWDERMAN	Emma	Factors Influencing Visuospatial Memory Performance Trajectory After Cranial Radiation Therapy	80
102	SULLIVAN, PHD	Alyssa	Executive functioning in adolescent and young adult survivors of pediatric brain tumors treated with proton radiation therapy	81
103	THOMADSEN	Julie	Cognitive impairment and altered gray matter volumes in newly orchiectomized and chemo-naïve testicular cancer patients	82
104	TORREKENS	Astrid	Interrelationship cardiorespiratory fitness, physical activity and subjective cognitive complaints in childhood cancer survivors	83
105	TORRES	Patsy M. Torres, B.A.	Prevalence and assessment of cancer-related cognitive impairment among Hispanic/Latinx cancer patients: A systematic review	84
106	TRUDEAU	Julia	Exosomal microRNAs and Key Pathways Associated with Cognitive Impairment in Breast Cancer Patients	85
107	TSVETKOV	Andrey	Methotrexate upregulates indoleamine 2, 3-dioxygenase 1 in neurons and exacerbates disease phenotypes in a model of Alzheimer's disease	86
108	VAN DER PLAS	Ellen	Feasibility of non-sedated neuroimaging in young children with acute lymphoblastic leukemia	87
109	VAN DYK	Kathleen	Phase II trial of Anhydrous Enol-Oxaloacetate treatment for Cancer Related Cognitive Impairment	88
68	VAN DYK (placed with 109)	Kathleen	"CanCOG – Cognitive Rehabilitation in Cancer": A manualized program for Portuguese cancer survivors	52
110	VAN ZANDVOORT	Martine	Unveiling memory decline post-SRS: Differential effects of hippocampal dose on cognitive function in patients with brain metastases	89
111	VANLAER	Nathalie	Integrative neurocognitive remediation therapy as an aftercare program for cancer survivors with cognitive problems: a prospective cohort study	90
112	VIEIRA JALES	Ilona	MoCA vs. MMSE: which tool should be used to screen for cognitive impairment in geriatric oncology ?	91
113	WEFEL	Jeffrey S.	Predictors of Cognitive Changes in Older Women with Breast Cancer: Results from a Prospective Longitudinal Trial	92
114	WEFEL	Jeffrey S.	Predictors of Cognitive Concerns in Older Women with Breast Cancer: Results from a Prospective Longitudinal Observational Trial	93
116	WU	Lisa M.	Feasibility of the ImpACT neuropsychological rehabilitation program for pediatric brain cancer survivors	94
117	ZERGUINE	Yann	Cerebral organoids: models to study impact of cancer and its treatments on human brain development	95
